NATIONAL RULES

PART B

FLY SHOOT CHAMPIONSHIPS

Revised 2013

No. 8

The Rules in this Part B Rulebook are a component of the Benchrest Rulebook and in circumstances not covered in Part B then Part A rules should be consulted.

Background and History

The Fly Shoot event was created by benchrest shooters who saw the need for a way to prove centrefire rifles under organised range conditions at a longer range that is 500 metres. After many months the competition format was settled. Rifles would be shot off the benches, but unlike short range benchrest, the match would be for group size, and include the score. This would encourage competitors to place their groups with a higher degree of accuracy than in short range benchrest matches.

In 1990 the first match was advertised, including in the SSAA Shooters Journal, as an open challenge to SSAA members, Police and Military personnel, and any other interested group. The response was overwhelming, attracting 40 competitors. The first Fly Shoot match was shot on the SSAA Canberra range in 1990, and was a huge success, with competitors keen to have it as a regular annual event.

The 20th annual Fly Shoot was contested on the SSAA Canberra range in 2010. The first official SSAA Fly Shoot National Championships was held in Canberra, ACT in 2012.

SECTION 1: AIMS AND OBJECTIVES

1.1 AIMS AND OBJECTIVES

- 1.1.1 The development and encouragement of benchrest competition to achieve extreme accuracy in firearms, ammunition, equipment and shooting methods.
- 1.1.2 To standardise, where practical, on an International basis, the entire benchrest shooting program so that targets, ranges, scoring methods, records and match procedures will be uniform and compatible.
- 1.1.3 To assist and encourage any individual or organisation affiliated with SSAA Inc in the promotion of benchrest shooting.
- 1.1.4 To gather and make available to SSAA members pertinent statistics and technical data.
- 1.1.5 To stimulate inspiration in the field of new ideas, designs and techniques; to arouse investigation into the feasibility and practical application of progressive concepts, or discoveries, with regard to safe firearms, sights and ammunition.

SECTION 2: SSAA STANDARD RULES

2.1 COMPETITOR'S ELIGIBILITY

A competitor who competes in a National Championship must be a financial member of the Sporting Shooters Association of Australia or an Association affiliated with the SSAA Inc or under special invitation from the SSAA Inc National Board.

A current SSAA membership card or official documentation from the SSAA National Membership Office or a SSAA State or Territory Association showing current membership details shall be accepted as proof of their financial membership, providing they are not under suspension from membership.

Members of Affiliated Associations must provide adequate documentation of their current membership of the Affiliate Association.

A person who is unfinancial or is unable to provide proof of their financial status may pay their full membership fee for the applicable SSAA State or Territory Association, to the Host Branch / Club, providing they are not under a suspension from membership. The membership fee must be paid prior to them commencing competition.

2.2 JUNIOR COMPETITORS

A SSAA junior member is any member under the age of 18 years at the commencement of the Championships.

A junior competitor in a National Championship shall pay no more than one half of the standard adult entry fee.

If the Discipline's National Championship includes Graded and / or Junior categories, a junior competitor is eligible to compete for Junior, Grade and Open medals and awards. The winning of a Junior medal or award does not preclude a junior competitor from winning any other category of medal or award.

Junior competitors are divided into two classes

- Under 15 years
- Under 18 years and 15 years and over

2.3 PERSONS WITH DISABILITIES

A competitor who, because of a physical disability, cannot fire from the prescribed shooting position outlined in these Rules, or who must use special equipment when firing, is entitled to petition the National Discipline Chairman for permission to assume a special position or to use modified equipment or both. The special position must simulate, as much as possible, the original firing position/s required by the Rules, for example boards or tables placed in front of a wheelchair may be used for the prone or kneeling positions.

This petition will be in the form of a written request from the competitor to the National Discipline Chairman outlining in detail the reasons why the special position must be assumed or the special equipment must be used. The petition, in duplicate, shall be accompanied by pictures of the competitor in the position they desire approved, and if special equipment is required, the pictures will show how this equipment is used. The petition must be accompanied by a medical doctor's statement if the physical disability is not completely evident in the pictures submitted.

2.3.1 Authorisation

Each petition will be reviewed by the National Discipline Chairman on its merits and may require additional or supplementary statements or pictures. If approved, the Chairman will issue a special authorisation certificate to the individual concerned. Such authorisation will have necessary pictures attached that will be signed and dated by the National Discipline Chairman. Competitors who have received special authorisation certificates are required to present them when requested by Competition Officials or the Range Officer.

Two types of authorisations are issued, temporary and permanent. Permanent authorisations are issued to competitors who have permanent physical disabilities.

2.3.2 Substitute position

In competitions where different shooting positions are required, a competitor with a temporary or permanent physical disability or impairment, that prevents them from using the specified firing position as defined in the Rules, may notify the National Discipline Chairman or the Competition Officials of their intention to use the next more difficult position in lieu of a position, e.g. Sitting may be used for Prone, Kneeling may be used for Sitting, and Standing may be used for Kneeling.

This substitution must comply with the rules for that position to be used and be approved by the National Discipline Chairman or Competition Official/s before the start of the shooting for that position.

2.3.3 Awards, trophies, records, etc.

Competitors using special authorisation certificates shall be eligible for all awards, trophies, etc. made under the competition Rules. But Australian or National records may not be established by use of scores shot in special positions or with special equipment under a special authorisation certificate.

2.3.4 Protests

In the event of a protest involving the position or the equipment used by a competitor, under Rule 2.8 the Protest and Appeals Committee will compare the questioned position or equipment with the certificate and photographs presented by the competitor. If the competitor's position or equipment does not, in the opinion of the Appeals Committee, conform to that authorised by the National Discipline Chairman (or if the competitor has no authorisation certificate or pictures), the protest shall be allowed and the competitor will be required to change immediately to the position or equipment which has been approved or to an otherwise legal position or equipment.

2.4 COMPETITOR'S RESPONSIBILITY

In the event of boisterous or unsportsmanlike behaviour by a competitor the Range Officer shall caution the offender once, and, if there is any repetition of the conduct, the competitor may be asked to immediately leave the firing line and may also be disqualified.

Any disqualification made under this Rule may be appealable under the procedure set down in Rule 2.8 for the Protest and Appeals Committee.

2.4.4 Range Safety Rules

All competitors should familiarise themselves with the usual safety precautions observed on SSAA ranges as well as any Rules specific to the range on which a particular championship is being conducted. Unsafe practices by a competitor on a SSAA range can be grounds for disqualification.

2.4.5 Safety Equipment

It is strongly recommended that ear and eye protection be worn at all times by persons who are in the vicinity of the firing line whilst shooting is underway.

It is recommended that suitable clothing, including enclosed shoes or boots, be worn at all times by a competitor whilst engaged in the competition and in the vicinity of the firing line.

A competitor may wear medical equipment which may be seen as giving support if a medical certificate confirming the competitor's need to wear such a device for health reasons is submitted to the National Discipline Chairman and / or Discipline Subcommittee for approval prior to the commencement of the competition.

2.5 STUCK LIVE ROUND: MANDATORY RULE

In the event of a malfunction which results in a stuck live round which cannot be simply removed from the breech end of the barrel, the firearm is to be made safe and removed from the range to a competent person for repairs. Under no circumstance is an attempt to be made to remove the round by insertion of a cleaning rod or similar object from the muzzle end of the firearm.

2.6 RULE INFRINGEMENTS

A competitor found to be infringing these Rules will be given a warning by the Range Officer. If the infringement continues the competitor may be suspended or disqualified from the competition being contested and their scores will not be recorded. Safety infringements or breaches may result in immediate suspension or disqualification.

2.7 DISCIPLINE CHAIRMAN'S AUTHORITY
